Novelty (N)	Claims 2-16	YES

	Claims 1	NO
Industrial applicability (IA)	Claims 1-16	YES

2. Citations and explanations:

D1: US 4038006

D2: US 3928522

D3: WO 2003/011560 A1

1. Independent Claim 1 discloses a preform for a container comprised of orientable plastics material and comprising a neck portion and an expandable portion below the neck, as well as a hollow handle portion integrally connected at least at a first end to the preform.

Documents D1-D3 all disclose preforms comprised of orientable plastics materials comprising expandable portions and hollow handle portions integrally connected at least at a first end to the preform. As a result, Claim 1 lacks novelty in light of D1-D3.

Furthermore, Claim 1 cannot be considered to involve an inventive step over the disclosures of documents D1-D3.

2. The claims are directed towards a preform and a method for blow-moulding a preform and therefore have industrial applicability.
